MILFORD SOUND

New Zealand's most stunning natural attraction, Milford Sound, lies deep within Fiordland National Park. Breath-taking in any weather, the Fiord's cliffs rise vertically from the dark waters. Mountain peaks scrape the sky and waterfalls cascade downwards from as high as 1000 meters.

When it rains in Milford Sound, those waterfalls multiply with magnificent effect. Milford Sound is isolated and difficult to access, however we can offer different options to provide you with the perfect experience.
